

# Waste Facilities Fire & Life Safety

## Waste & Recycling

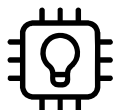

See Risk **Before Catastrophe**  
DETECT. ALERT. REACT.

# Rising premiums. Tougher renewals. Shrinking coverage.

Insurers are tightening standards. Fire risk must be mitigated and not just managed. Our solutions may help you meet expectations with documented, proactive “pre-taction.”

## Vertically Integrated Safety

### CUTTING-EDGE PROPRIETARY TECHNOLOGIES

Integration of advanced thermal management and smart fire detection systems.

### COLLABORATIVE ENGINEERING TEAM

Partnering with your engineers to enhance safety in developing technologies.

### END-TO-END SUPPORT

Experience across the entire project lifecycle, from design to commissioning.

### COMPLIANCE EXPERTISE

Familiarity with Authorities Having Jurisdiction (AHJs) and local regulations.

## Fire Protection for the Waste Industry

Industrial Fire Protection (IFP) is a global special hazard fire and life safety company; offering smart fire solutions for high risk environments. From transfer stations to MRFs, our systems are uniquely designed to handle complex environments.

# Autonomous Fire Detection and Suppression

People's safety comes first. Fires should be addressed by systems, not staff. We provide systems tailored to your facility/operation.

Transfer Stations · MRFs · Landfills · E-Waste · Recycling Facilities & More.

## You are in control of your protection

Automated Protection

Early Hazard Detection

24/7 AI-Powered Monitoring

Custom Systems & Seamless Integration

### 3 Steps of Fire Response

Advanced Detection

**1**

DETECT

Intelligent Alarm Systems

**2**

ALERT

Automated Suppression

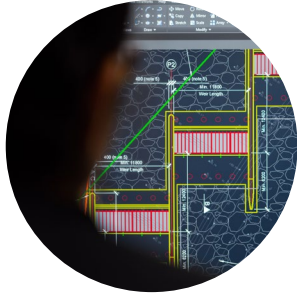

**3**

REACT

# Your Vertically Integrated Fire Safety Solutions Partner

## Engineering & Design

- Fire Protection Engineering
- System Design
- Permitting and AHJ Support
- Project Management
- Site Water Supply Design/  
Evaluation

## Product Supply & Install

- AI Powered Early Detection
- Automated Suppression
- Clean-Agent
- Sprinkler
- Water Mist
- Detection and Controls
- Thermal Detection

## Service & Maintenance

- Semi-Annual System Test  
and Inspection
- Commissioning
- On-Site Integration
- FSS Maintenance
- Fire Alarm & Detection  
Integration

We are proud to be working with an esteemed network  
of partners in the waste space;
